If you have concern for a student or staff’s behavior, submit a report to the Boise State CARE Team. CARE stands for Campus Assessment, Resource, and Education.

Living, learning, and working at Boise State can be very stressful and students and staff will face challenges. As a result, some individuals may exhibit behavior that is:
- Concerning
- Disruptive
- Threatening towards themselves or others

If you are concerned about someone’s behavior on campus, go to www.care.boisestate.edu and file a CARE report. The CARE website also has much more information about persons of concern.

Note: If there is an immediate threat to any person or campus property, contact 9-1-1

Active Shooter

Make a decision, trusting your instincts, to take action to protect yourself to survive the situation. You generally will have three options:
- Get Out: can you safely escape?
- Hide Out: Is there a good place to hide?
- Take Out: Will you engage the shooter?

Note: Boise State has additional checklists and training materials available for Active Shooter at www.emergencymanagement.boisestate.edu/active-shooter-resources/
